- **7 pm** Candlelight Vigil outside the White House marking the time the Tomahawk Missiles exploded in Baghdad
Please bring your own light for the candlelight vigil

January 15, 2011 marks the 20th year since the United States began to bomb Iraq. Since then millions of Iraqi people have been militarily occupied, injured, starved, killed, tortured, and imprisoned. Millions more have become internally displaced or refugees in other countries. The purpose of this witness in Washington, D.C. is to draw attention to the fact that the United States has been using military force for 20 years that has led to the slaughter of Iraqis and the destruction of their country. It is our hope the United States will instead follow the dream of Dr. King to abolish war and injustice.
